### IMPROVING DIAMOND FOR SUNDAY'S GAME

Jewels and Gas Nine to Cross Bats in Warmest Game of Season.

With the announcement that Bill Alvord's Jewels will cross bats with the nine of the Pacific Gas & Electric company on Sunday afternoon at Eastlake, baseball matters in Phoenix are certain to take on new impetus. The gas company team last season was rated one of the strongest independent teams in the territory and managed to defeat practically every nine with which it played. With some added material, it is believed that the team is today in better shape than ever before and likely to give the Jewels the time of their lives in a game.

Preparations for the game are now going on and Bill Alvord promises that the diamond at Eastlake will be found on Sunday to be in a better condition than has ever been the case. He is placing oil at every base and on the diamond wherever needed with the end in view of making the surface smooth and clean and free from dust. This will insure an opportunity for playing speedy ball.

It is believed that interest in baseball is growing sufficiently to warrant the bringing here of outside nines. For a time the attendance at the games with visiting teams was unsatisfactory and in several instances money was lost. It is announced that arrangements have been made for the appearance here of the Casa Grande nine, which is one of the strongest teams the Jewels ever met. This aggregation will be here on Sunday, October 23. It is expected that the team from Ray may be signed for a game here on October 27. Manager Alvord is in receipt of a letter from Manager Denney Ford of the Ray team asking for that date.

Following is the line-up for the Jewels on next Sunday: Grijalva, first base; Byers, second base; Every, shortstop; Dohmson, third base; Quilroz, left field; Lyall, center field; Rudolph, right field; Parks, Dyer, pitcher; Brishois, Sullivan, catcher.

For the gas team the following is the line-up: Vinson, Towers, Hodges, Hanshue, Harter, Morris, Manuel, Hanson, Heinz.

Your cough annoys you. Keep on hacking and tearing the delicate membranes of your throat if you want to be annoyed. But if you want relief, want to be cured, take Chamberlain's Cough Remedy. Sold by all dealers.

### THE BASEBALL RECORD

Philadelphia, Oct. 12.—It is estimated by members of the national commission in charge of the distribution of seats for the first two games of the world's series next week, that \$70,000 has been returned to applicants for tickets whose orders cannot be filled. The demand for tickets has broken all records and the amount returned is the largest ever turned back. Many today tried in every way they knew to buy reserved seats at advanced prices. The national commission has taken extraordinary precautions to keep tickets out of the hands of scalpers. Center-fielder Odling of Philadelphia may not be able to play in the world's series and laments that his knee was twisted in yesterday's game.

#### BLAMES SUFFRAGETTES.

A certain dry goods merchant says that the demand in his city for waterproof rain coats is very small and he blames it all to the suffragettes, for he says "the suffragette movement has killed woman's desire to be protected—perhaps even from the rain."

### DATE FOR PARKER EXCURSION IS SET

Many Local Business Men Expect to Make Trip Into A. & C. Country October 27.

Thursday, October 27, has been definitely set as the date for the "get acquainted" excursion to Parker. This date seems to be satisfactory to most of the business men of the city and nearly all have promised to make strenuous efforts to go along with the crowd and endeavor to bring about closer relations between Phoenix and the people of the A. & C. country. That there will be a large crowd seems a certainty.

The excursion train will leave Phoenix at 11 o'clock in the evening and reach Parker about 6:30 the next morning. Parker's business men will be at the station to welcome the excursionists, and it is probable that the Phoenixians will take breakfast with them.

Parker will be left behind at 10 or 10:30 and the excursionists will arrive in Bouse for lunch. It is possible that after the midday meal they will run out to Swanson, a town of 2,000 people, where the Clara Consolidated mine and smelter are located. Stops of a few minutes each will be made at Salome and Wenden. Supper will be taken at Wickburg and the train will pull into Phoenix about 10 o'clock on the evening of Friday, the 28th.

While getting acquainted with their western neighbors the local business men will urge everyone they meet to come to the fair, which will open about two weeks following the excursion. It is probable that some of the fair commissioners will be with the party.

No Phoenix literature will be taken along on the trip, as it is not designed to be an advertisement for Phoenix, but a supply of oranges and perhaps of some other fruit will be on the train. The oranges will be passed out at the stations where they are made.

### TUCSON WAS PLEASED WITH ENTERTAINMENT

"Morning, Noon and Night" Satisfied Manager Drachman.

Tucson, Oct. 12.—(Special).—"Morning, Noon and Night" played at my house tonight. One of the best shows I ever played. Can recommend it highly.

—EMANUEL DRACHMAN, "Manager Tucson Opera House."

The above telegram was received at a late hour last night by The Republican. "Morning, Noon and Night" appears at the Elks' theater this evening.

#### AN AUTOMOBILE HEARSE.

Not Yet in Common Use, But Said to Be Coming—One Elaborate Specimen.

The automobile hearse has not yet come into general use, but at least one such hearse has actually been built and it has been used on two occasions.

This hearse in its general outlines and appearance is of the conventional type. It is a hearse body mounted on an automobile chassis. From the front edge of the body's roof there is carried forward over the driver's seat a sheltering roof as with a limousine. On one of the footboards is carried a tool chest and at the rear the usual automobile lamp, and the vehicle carries an automobile horn. The only lamps carried forward are two conventional coach lamps by the driver's seat.

In the details of its construction and finish this automobile hearse is elaborate. Its sides are each divided into three panels, the central panel of glass and the two end panels on either side of carved wood. The lamps and all the metallic trimmings and ornaments of the hearse are silver plated. So this is a costly hearse made to sell at about \$5,000. Automobile hearses of simpler design could, of course, be made at lower cost, perhaps for \$3,000 or less. The present cost of the automobile hearse is given as one reason why it has not sooner come into general use.

Undertakers are among the most conservative of men; they are slow to make changes. They have hitherto clung to the old horse drawn hearse, but there are undertakers who think the automobile hearse is coming.

An undertaker of extended experience has expressed the opinion that automobile hearses will finally be brought into use without exciting comment by the increasing use of automobile carriages in the funeral procession; people will become so accustomed to see automobiles at funerals that the automobile hearse will seem nowise out of place.

Another undertaker of long experience looks to see the automobile hearse first brought into use by conservative people of ample means who in some circumstances may find its use advantageous and desirable. At some funerals now the casket is moved four times between the house and the grave; once when originally placed in the hearse at the house, again in transshipping it to a funeral car in a city railroad station, again in removing from this car at the cemetery station and again in removing it from the hearse in the cemetery at the grave. With an automobile hearse the casket could be carried from the house direct to the cemetery, followed by the limited number of closed automobiles that would be required to convey those

attending the interment ceremonies. With the automobile hearse thus introduced into use he looks to see its use extended.  
An automobile man says that while the automobile hearse now costs more and so undertakers may not on that account hesitate about buying it, yet it costs nothing, as horses do, when idle, and it is always ready and, unlike horses, it can go any distance, the danger of breakdown being practically eliminated, and it can move quicker.

With these advantages for it and with automobile carriages and vehicles generally constantly increasing in number he looks to see in the not distant future the automobile hearse coming into extended use.—New York Sun.

## PHOENIX, ONE DAY ONLY, MON. OCT. 24th

GROUNDS CHURCHILL'S ADDITION.

The Last, Biggest and Best Show of the Season "Buffalo Bill" Positively Bids You Good Bye.

### THE SCROLL OF FAME

Bears no names more illustrious than those of men who have devoted their lives to the advancement of mankind. What nobler mission could there be than to give pleasure, education and amusement to one's fellow-man? To have given to the world original, ingenious, historic and elevating entertainments is quite enough to command lasting fame for the originators, founders and perpetuators of

### BUFFALO BILL'S WILD WEST

### AND PAWNEE BILL'S FAR EAST

### WHO NOW ANNOUNCE

### BUFFALO BILL'S LAST VISIT

### To this City

AS NO RETURN DATES WILL BE MADE, and like the history he has been telling for nearly a third of a century which is past and gone, so will the Old Scout soon linger only as memory. Col. Wm. F. Cody, "Buffalo Bill," Ex-Chief of Scouts, U. S. Army, pioneer, plainsman, hunter, guide and Indian fighter, has for more than a quarter of a century gained fame across two hemispheres through exhibiting his historic exposition of early days in the Western wilds.

Mal. Gordon W. Lillie, "Pawnee Bill," has contributed to the allied entertainment authentic pictures of the Orient, shown in animated tableaux, depicting the tribes and people, custom and costumes of the romantic Far East, and thus displaying in contrasting pictures, authentically correct, BOTH SIDES OF THE EARTH.

From the historic scenes and incidents, depicting pioneer days and frontier strife on our own rolling prairies, with vistas of barbaric war and foray, the scene shifts to the sands of the Sahara, its camel cavalries and "Ships of the Desert," with the Pyramids and Sphinx, the tribes of the Sudan and the gorgeous splendors of AN ORIENTAL SPECTACLE.

In the entire exhibition there is no sham or subterfuge; it is absolutely original, authentic and true to fact. Its predominating characteristic is genuineness; everything presented is realism itself. Every horseman is the hero he represents. The art he employs is the lesson of a lifetime. The garb he wears is the uniform of the nation or tribe that gave him birth. In every particular it is emphatically HISTORIC AND GENUINE.

Directing every detail of the exhibition and positively appearing at every performance the last of the great scouts, the last of the plainsmen-warriors who rode the Western wilds for the onward march of civilization and commerce rides the hero-horseman, the last of the great scouts and pathfinders COL. WM. F. CODY THE ONLY AND ORIGINAL BUFFALO BILL WITH HIS ROUGHRIDERS OF THE WORLD.
